

QUARTERLY RETURN FROM STD CLINICS IN SRI LANKA (Revision: 31.01.2024)

Name of the STD clinic : _____

Period of the return : __/__/202__ to __/__/202__ (____ Quarter of 202__)

Return completed by (Name and designation) _____ Checked by (Name and designation) _____

Date of completion : __/__/202__

PART 1

Table 1. Total number of new diagnoses* by age group and sex

(Source: Main Register- 2017 or EIMS)

No.		Male <15 year	Male 15-24 year	Male 25-49 year	Male 50+ year	Male Total	Female <15 year	Female 15-24 year	Female 25-49 year	Female 50+ year	Female Total
1.1	Newly diagnosed HIV (During this quarter)					0					0
1.2	Newly diagnosed HepB (During this quarter)					0					0
1.3	Infectious syphilis					0					0
1.4	Late syphilis					0					0
1.5	Early Congenital Syphilis					0					0
1.6	Late Congenital Syphilis					0					0
1.7	Gonorrhoea and presumptive GC					0					0
1.8	Ophthalmia neonatorum					0					0
1.9	NGU/NGC					0					0
1.1	Chlamydia					0					0
1.11	Genital herpes					0					0
1.12	Genital warts					0					0
1.13	Pelvic inflammatory disease (PID)					0					0
1.14	Trichomoniasis					0					0
1.15	Candidiasis					0					0
1.16	Bacterial vaginosis					0					0
1.17	Other STIs					0					0
1.18	TOTAL STI	0	0	0	0	0	0	0	0	0	0
1.19	Non STI/Uncertain					0					0
1.2	No illness					0					0
1.21	GRAND TOTAL	0	0	0	0	0	0	0	0	0	0

Table 2. Number of clinic attendances for the quarter
(Sources: Main Register- 2017 & Sub visit register or EIMS)

		Male	Female	Total
2.1	New patients registered			0
2.2	New patients registered with STIs including HIV and HepB			0
2.3	Total number of clinic visits by STD patients including HIV and HepB			0
2.4	Total number of visits by others*			0

* Pre-employment, ANC, OPD etc

Table 3. Reason for attendance by newly registered patients
(Sources: Main Register- 2017 or EIMS)

No.		Male	Female	Total
3.1	Contact of a patient			0
3.2	Voluntary			0
3.3	Referral for medico-legal purposes			0
3.4	Others			0

Table 4. Contacts for syphilis, gonorrhoea, chlamydia, and trichomoniasis
(Sources: Interview and Contact tracing Register or EIMS)

		Male	Female	Total
4.1	Contacts of syphilis treated			0
4.2	Contacts of gonorrhoea treated			0
4.3	Contacts of chlamydia treated			0
4.4	Contacts of non-gonococcal infections treated			0
4.5	Contacts of trichomoniasis treated			0

Table 5. Number of patients with confirmed syphilis diagnoses completing treatment
(Source: Syphilis Register, EMTCT register and EIMS)

		Male	Female	Total
5.1	Number of diagnosed with syphilis			0
5.2	Number completed treatment (of 5.1)			0
5.3	Number of pregnant women diagnosed with syphilis			0
5.4	Number completed treatment (of 5.3)			0

Table 6. Number of samples tested for HIV infection (Testing laboratory :.....)

(Source: Laboratory Register and EIMS)

		Number screened for HIV (ELISA, PA, Rapid)	Number positive	Number tested by a confirmatory test, (3 tests, immuno blot or PCR)	Number of confirmatory test positives	Number tested with VDRL or RPR	Number tested with TPPA or TPHA	Number screened for Hepatitis B (Hepatitis Bs Ag by rapid or ELISA)	Number positive for Hepatitis B
6.1	STD patients' samples								
6.2	Antenatal samples								
6.3	Pre-employment samples								
6.4	Other samples								
Total		0	0	0	0	0	0	0	0

Table 7. Number of samples tested for syphilis (Testing laboratory :.....)

(Source: Laboratory Register and EIMS)

		Number
7.1	Number screened for cervical cytology during the quarter	
7.2	Total number of reports received (Tested in any quarter)	
7.3	Of them (8.2) number satisfactory for reporting	
7.4	Of them (8.3) number reported as CIN-1 or above	

Table 8. Key population “Reached” within the STD clinic during the quarter

(Sources: PAP register and EIMS)

			Escorted <25 y	Escorted 25+ y	Self-referral <25 y	Self-referral 25+ y
8.1	FSW	Newly registered				
		Number of newly registered and previously registered				
		Outpatients (OPD basis without opening a file)				
8.2	MSM (non TG)	Newly registered				
		Number of newly registered and previously registered				
		Outpatients (OPD basis without opening a file)				
8.3	Transgender	Newly registered				
		Number of newly registered and previously registered				
		Outpatients (OPD basis without opening a file)				
8.4	Beach boys	Newly registered				
		Number of newly registered and previously registered				
		Outpatients (OPD basis without opening a file)				
8.5	Male IDU	Newly registered				
		Number of newly registered and previously registered				
		Outpatients (OPD basis without opening a file)				
8.6	Female IDU	Newly registered				
		Number of newly registered and previously registered				
		Outpatients (OPD basis without opening a file)				
8.7	Male prisoners	Number of prisoners				
8.8	Female prisoners	Number of prisoners				

Table 9 No. of new KPs tested for HIV by STD clinic staff and staff of KP unit within STD clinic or by outreach events* during the quarter

(Sources: Main Register- 2017, EIMS, KP unit registers or PIMS)

		Total tested for HIV by STD_outreach <25 y	Total tested for HIV by STD_outreach >=25 y	Received positive resultsby STD_outreach <25 y	Received positive results_by STD_outreach >=25 y	Received negative results by STD_outreach <25 y	Received negative results by STD_outreach >=25 y	Total tested for HIV by KPU_outreach <25 y	Total tested for HIV by KPU_outreach >=25 y	Received positive results by STD_outreach <25 y	Received positive results_by STD_outreach >=25 y	Received negative results by KPU_outreach <25 y	Received negative results by KPU_outreach >=25 y
9.1	FSW												
9.2	MSM (non TG)												
9.3	Transgender												
9.4	Beach boys												
9.5	Male IDU												
9.6	Female IDU												
9.7	Male prisoners												
9.8	Female prisoners												
9.9	Others												

Table 10. Number of STI diagnoses among Key populations and pregnant women who attended the STD clinic during the quarter

(Sources: Main Register- 2017 or EIMS)

		FSW	Female IDU	Female prisoners	TGW	MSM	Male IDU	Beach boys	Male prisoners	Pregnant Mothers
10.1	Newly diagnosed HIV (During this quarter)									
10.2	Newly diagnosed HepB (During this quarter)									
10.3	Infectious syphilis									
10.4	Late syphilis									
10.5	Gonorrhoea and presumptive GC									
10.6	NGU/NGC									
10.7	Chlamydia									
10.8	Genital herpes									
10.9	Genital warts									
10.1	Trichomoniasis									
10.11	Other STDs									

Table 11: Number of HIV RDT (1,2,3), HIVST, Duo, condom and lubricants utilised or distributed by the STD clinic and KP unit during the quarter

(Source: STD clinic RDT and HIVST testing registers and KP unit registers and EIMS)

	HIVST	Duo Test	HIV RDT-1	HIV RDT-2	HIV RDT-3	Hep B RDT	Hep C RDT	Male condoms	Female condoms	Lubricants
11.1 Female sex workers										
11.2 MSM (including MSW)										
11.3 Transgender										
11.4 Beach boys										
11.5 PWID – Male										
11.6 PWID – Female										
11.7 Prisoners – Male										
11.8 Prisoners – Female										
11.9 Others - STD clinic attendees										

Table 12: Number of HIV RDT/HIVST/Duo utilised or distributed by place of testing

(Source: STD clinic RDT and HIVST testing registers and EIMS)

	HIVST	Duo Test	HIV RDT-1	HIV RDT-2	HIV RDT-3	Number confirmed positive persons	Hep B RDT	Hep C RDT
12.1 STD clinic attendees								
12.2 Antenatal in STD clinic								
12.3 Pre-employment								
12.4 MOH								
12.5 Hospital-based testing								
12.6 GPs								
12.7 Migrant returnees								
12.8 Prison testing								
12.9 Others (PEP/OPD)								

Table 13: HIV and syphilis tests performed by private laboratories in the area of STD clinic (No of private laboratories.....) -Due to the unavailability of the PHI, unable to capture this data

(Source: Private laboratory HIV and syphilis testing reports)

	Male	Female	Total
13.1 No. HIV screening tests done			0
13.2 No. HIV screening positive			0
13.3 No. sent for confirmation			0
13.4 No VDRL tests done			0

13.5	No VDRL positive			0
13.6	No TPPA/TPHA tests done			0
13.7	No TPPA/TPHA positive			0
13.8	No HbsAg tests done			0
13.9	No HbsAg positive			0
13.1	No Hep B confirmed			0

Table 14. Details of HIV post exposure prophylaxis (PEP) services provided during this quarter
(Source: PEP Register and EIMS)

		Number
14.1	Number of clients who attended for PEP services	
14.2	Of them (14.1) number started on PEP	
14.3	Of them (14.2) number	PEP 28 days completed
		Stopped before 28 days (due to medical reasons)
		Still on PEP
		Defaulted
14.4	Number came for screening after 3 months	
14.5	Of them (14.4) number became positive for HIV	

Table 15. Details of HIV Post Exposure Prophylaxis Following Sexual Exposure (PEPSE) services provided during this quarter
(Source: PEPSE Register or EIMS)

		Number
15.1	Number of clients who attended for PEPSE services	
15.2	Of them (15.1) number started on PEPSE	
15.3	Of them (15.2) number	PEPSE 28 days completed
		Stopped before 28 days (due to medical reasons)
		Still on PEPSE
		Defaulted
15.4	Number came for screening after 3 months	
15.5	Of them (15.4) number became positive for HIV	

Table 16. Details of HIV Pre Exposure Prophylaxis (PrEP) services provided during this quarter

(Source: PrEP Register or EIMS)

		Age 15-19 years	Age 20-24 yrs	Age 25-49 yrs	Age 50+ yrs
16.1	Male				
16.2	Female				
16.3	Transgender				
16.4	Number of people who received any PrEP product for the first time in their lives during the reporting period				

Table 17. Stock balance of condoms, lubricants and HIV test kits

(Sources: Laboratory or pharmacy registers/EIMS/PIMS)

		Number at beginning of quarter	Number received during quarter	Number issued during quarter	Number at end of quarter
17.1	Number of male condoms	0			0
17.2	Number of female condoms	0			0
17.3	Number of lubricants	0			0
17.4	Number of HIV RDT-1	0			0
17.5	Number of HIV RDT-2	0			0
17.6	Number of HIV RDT-3	0			0
17.7	Number of HIVST (self-test kits)	0			0
17.8	Number of Duo Tests	0			0
17.9	Number of Hep B RDT	0			0
17.1	Number of Hep C RDT	0			0

Table 18. Type of IEC/BCC, awareness & advocacy programmes

(Source: IEC/BCC Register)

		Type of programme	Number of programmes	Approximate number of participants
18.1	By Program type:	Lectures		
18.2		Exhibitions		
18.3		Workshops		
18.4		Other (Specify)		
Total			0	0
18.5	By Population:	Female sex workers		
18.6		MSM (including MSW)		

18.7	Transgender		
18.8	Drug users		
18.9	Beach boys		
18.1	Prisoners		
18.11	Other (Specify) - MOH inservice, Police, Youth corp		
Total		0	0

Table 19. Training and capacity building of healthcare workers(HCW) by STD clinic staff

(Source: Training register)

		Type of HCW	Number of programmes	Number of participants
A. STD clinic staff (pre-service & in-service)	19.A1	Medical officers		
	19.A2	Nursing officers/PHNS		
	19.A3	PHI		
	19.A4	Laboratory staff		
	19.A5	Supportive staff		
	19.A6	Other		
B. Other Health staff	19.B1	Medical officers		
	19.B2	Nursing officers/PHNS		
	19.B3	PHI		
	19.B4	Laboratory staff		
	19.B5	Supportive staff		
	19.B6	Other - MOH inservice training		
C. Undergraduate/ basic HCW trainees	19.C1	Medical students		
	19.C2	Nursing officers/PHNS		
	19.C3	PHI		
	19.C4	Laboratory staff		
	19.C5	Other		
D. Postgraduate/ Post basic HCW trainees	19.D1	Venereology		
	19.D2	Other medical specialities		
	19.D3	Nursing officers		
	19.D4	Other		
E. Other staff	19.E.1	NGO staff (MA, OW etc.)		
	19.E.2	Peer educators		
	19.E.3	Other - Youth corp		

PART 2

Part 2 should be filled only by STD clinics with having NGO/CBO/KP led KP units

Table 20: No. of new physical *reach of KPs by the KP unit during this quarter by age, during this year
(Sources: KP unit register or PIMS)

#	Indicator	FSW		MSM		TGW		BB		PWID - Male		PWID - Female		Prison* Male		Prison* Female	
		<25	≥25	<25	≥25	<25	≥25	<25	≥25	<25	≥25	<25	≥25	<25	≥25	<25	≥25
20.1	Number of clients registered with the KP unit (physically by PE)																
20.2	Number clients reached with HIV prevention programmes with defined package of services [1].(Physical reach)																
20.3	Number of IEC material distributed among clients																
20.4	Tested for HIV and results received by KPs																

* - Conducted by Prison staff

Table 21 No. of new KPs tested for HIV by NGO/CBO/KP led (KP unit) within STD clinic or by outreach events* during the quarter
(Sources: KP unit register or PIMS)

		HIV testing by KP unit within STD clinic or by outreach events					
		Tested for HIV		Received results			
				Positive		Negative	
		<25 y	>25 y	<25 y	>25 y	<25 y	>25 y
21.1	FSW						
21.2	MSM (non-TG)						
21.3	Transgender						
21.4	Beach boys						
21.5	Male IDU						
21.6	Female IDU						

21.7	Prison* - Male						
21.8	Prison* - Female						
21.9	Other (e.g.DU etc)						

PART 3

Table 22: Virtual reach by NGO/CBO/K led programs (KP unit) by mobile phone Apps (except Know4sure) during this quarter by age
(Sources: KP unit register or PIMS)

#	Indicator	FSW		MSM		TGW		BB		PWID - Male		PWID - Female	
		<25	≥25	<25	≥25	<25	≥25	<25	≥25	<25	≥25	<25	≥25
22.1	Number of clients virtually registered by OOW												
22.2	Of them (23.1) Number clients virtually reached with at least one HIV service [1]. (Virtually by OOW)												
22.3	Number of clients educated on STI/HIV												
22.4	Number clients provided condoms and/or lubricants												
22.5	Number clients provided HIV self-test kits												
22.6	Tested for HIV and results received by KPs												

Table 23: Virtual reach by KP unit Know4sure.lk during this quarter by age
(Sources: know4sure.lk website)

#	Indicator	FSW		MSM		TGW		BB		PWID - Male		PWID - Female	
		<25	≥25	<25	≥25	<25	≥25	<25	≥25	<25	≥25	<25	≥25
23.1	Number of clients virtually registered by Know4sure.lk												
23.2	Of them (24.1) Number clients virtually reached with at least one HIV service [1]. (Virtually by OOW using Know4sure.lk)												
23.3	Number of clients educated on STI/HIV												
23.4	Number clients provided condoms and/or lubricants												
23.5	Number clients provided HIV self-test kits												
23.6	Tested for HIV and results received by KPs												

Table 24: Virtual HIV self-testing by online outreach workers during this quarter by age
(Sources: KP unit register, PIMS and know4sure.lk)

		HIV testing by STD clinic staff within STD clinic or by outreach events					
		Tested for HIV		Received results			
				Positive		Negative	
		<25y	>25y	<25 y	>25y	<25y	>25 y
24.1	FSW						
24.2	MSM (non TG)						
24.3	Transgender						
24.4	Beach boys						
24.5	Male DU/IDU						
24.6	Female DU/IDU						

Instructions:

- Quarterly return should be prepared by 20th of the following month after each quarter.
- Duly completed returns should be sent to Director, National STD/AIDS Control Programme, (c/o SIM Unit), 29, De Saram place, Colombo 10.
- Electronic copies can be emailed to nsacp.sim@gmail.com or via fax to 011 2665277
- Always to keep a copy of the return at the STD clinic for local use and future references.
